

PUBLIC NOTICE

The attention of the Food and Drugs Authority (FDA) has been drawn to the operations of some individuals and business entities offering entrepreneurship skills in the manufacture of some regulated products including Cosmetics and Household Chemical Substances.

Many of such products sampled by the FDA on our markets do not meet the quality and efficacy standards, are inadequately labelled, and have shelf-life disparities. These present serious public health challenges.

In light of the above observed regulatory infractions, the FDA is offering a nationwide Training Programmes from June to August 2023, for all persons who offer entrepreneurship skills training in the manufacture of Cosmetics and Household Chemical Substances to address these emerging public health concerns.

Interested persons are to register online at <https://forms.office.com/r/guWxqHhJHy> or call at any of the FDA offices across the country to pick up a registration form. They may also call **Mrs. Mercy A. Owusu Asante on 0244652336** (between 8:00am – 4:00pm, **weekdays ONLY**) or send an Email on technicalsupport@fda.gov.gh for further enquiries.
