1. INTRODUCTION

In exercise of the powers conferred on the FDA by the Public Health Act, 2012, Act 851, Part Seven, section 130, these guidelines apply to Catering Facilities which are to be established for preparation, packaging, distribution, storage or sale of food intended for human consumption.

Despite the above, Food Service Establishments shall comply with existing Ghana Standards and Code Of Hygienic Practice For Food Service Establishment In The Hospitality Industry (FDA/FSMD/CP-FSE/2013/03)

These guidelines have been developed as a guide to persons applying to the Food and Drugs Authority (FDA) for license to provide catering services to the general public.

2. GLOSSARY

For the purpose of these guidelines, unless the context otherwise requires,

“Catering Facility” means a facility that prepares and sells food to consumers for immediate consumption, and or a facility that prepares food intended to be sold directly to consumers.

“deferred application” means the application for the Licensing of the Catering facility was deferred because the facility does not meet minimum requirements in the Code Of Hygienic Practice For Food Service Establishment In The Hospitality Industry (FDA GL05/FSE 01/1-2008) that will ensure the safety of food from the facility. The registration is therefore put on hold until the catering facility meets these minimum requirements;

“Food Hygiene Permit” a document issued by the Food and Drugs Authority to Catering Facilities as a means of approval.

“requirements” are the criteria set down relating to the establishment of a Food Service Establishment.

“rejected application” means the application for Licensing of the Catering facility was rejected because the facility was deemed unfit to be used for that purpose.

“renewal” means to make valid for a further period or extent, the validity of the license/permit from the Food and Drugs Authority.

“site plan” means basic floor plan showing plant installation; and

“site master file” means a document that details general information about the company. It includes information on the company’s background, site plan, mission, policies, Quality and safety manuals, and other relevant documentation.
