

Your Well-being, Our Priority

RE-REGISTRATION AND VARIATION APPLICATIONS DURING COVID 19 PANDEMIC

The Food and Drugs Authority (FDA) as part of ensuring that the Authority implements measures and strategies to mitigate and reduce the spread of Covid 19 as well as ensure availability of such medicines for use in Ghana has instituted the following measures for submission of applications for renewal and variations of medicinal products;

- a. Electronic payments of requisite application fee (find attached FDA bank details as well as payment forms).
- b. Electronic signed documentation in line with re-registration requirements and variation documentation.
- c. Administrative documents needed from the originating country of manufacture such as manufacturing license and certificate of pharmaceutical products (CoPP) and where any of these are not available, they may be submitted when received. In such cases, a commitment to submit these documents will be adequate.
- d. Submissions of applications without samples at this time until COVID-19 restrictions have been removed.
- e. A letter of declaration that for renewal no unapproved unsolicited changes have been made.
