**Type of Communication:**  
**Identification Number:**  
**For Immediate Release:**

**Product Registration**  
**FDA/CSD/CPE/PRS/21/0010**  
**11<sup>th</sup> November 2022**

### **EMBOSSMENT OF HOLOGRAMS ON FDA CERTIFICATES AND PERMITS**

This release is to inform the public that effective **15<sup>th</sup> November 2022**, all FDA **certificates and permits** issued for products regulated by the Food and Drugs Authority would be embossed with a hologram seal with security features.

The introduction of these security interventions on the certificates and permits issued by the FDA is intended to improve authenticity and provide the needed assurances.

Clients and stakeholders, including manufacturers, importers, exporters and market authorization holders of FDA-regulated products are therefore to be guided appropriately.

Please contact the FDA on any safety, quality and efficacy concerns of its regulated products through the following contacts:

0551112224/5
