

CAUTION AGAINST ASCOT DIET FOR WEIGHT LOSS

The attention of the Food and Drugs Authority has been drawn to the use of injections, appetite suppressants and a meal plan for weight loss known as Ascot Diet.

The FDA wishes to inform the public that Ascot Diet weight loss products, produced by the Ascot Diet Clinic have not been registered by the Authority and its use could cause severe allergic reactions like itching, hives, shortness of breath, wheezing, swelling of the tongue, throat or mouth, stomach cramps, nausea, diarrhea, dizziness, or faintness due to the sudden boost in minerals and nutrients

The FDA wishes to advise the public to desist from patronizing medicinal products that are not registered by the Authority since their safety, quality and efficacy cannot be guaranteed.

Importers of such weight loss products are to note that Sections 99 and 118 of the Public Health Act, 2012, Act 851 prohibit the
