- Industrial Pharmacist and Quality Control Expert
- Clinical Pharmacist
- Clinical Pharmacologist
- Dermatologist
- Toxicologist
- Herbal Medicine Specialist
- Physician specialist

Technical Advisory Committee on Safety of Vaccine and Biological Products

- Virologist
- Pediatrician
- Immunization Specialist
- Physician Specialist
- Epidemiologist
- Practicing Pharmacist
- Pathologist

Responsibilities

1. Evaluation of pre- and post-approval product safety, quality, efficacy and effectiveness issues. Such an evaluation will be based on the information provided to the Committees by the Authority and should be relevant to the risk-benefit of the product(s) in question.
2. Upon request, the Committees will make recommendations to the FDA regarding actions to be taken to resolve issues or concerns related to pre- and post-approval product safety, quality, efficacy or effectiveness issues.
3. Assist the appropriate Division of the Authority in the conduct of causality assessment of adverse reactions and safety reports submitted to the FDA.
4. Regularly review and advise the Authority on its safety monitoring system and make recommendations regarding its maintenance and improvement.

5. Make recommendations for publication of case reports, risk-benefit evaluations, recommendations and communications arising from meetings of the Committee that are deemed appropriate for medical and scientific journals.
6. Make recommendations for educational programs and topics for health care professionals and consumers aimed at enhancing reporting adverse reactions and also enhancing professional and consumer awareness of post-approval drug safety, quality, efficacy and effectiveness issues.
7. Advise on guidelines for post–approval safety monitoring of drugs (including herbal medicines), medical devices and other health products.
