

**FOOD AND DRUGS BOARD  
REVIEWED DRUG CLASSIFICATION LIST**

**PRESCRIPTION ONLY MEDICINES (POM)**

The salts, preparations and admixture of the following;

Acarbose  
Acebutolol  
Acetazolamide  
Acetohexamide  
Acetylcysteine  
Acetyldigitoxin  
Acetyldihydrocodeine  
Actinomycin-D  
Acyclovir (preparations containing more than 5 %)  
Aescin, other than preparations intended for topical use only  
Aceclofenac  
Alcuronium  
Alfadolonum  
Alfaxalonum  
Alfentanil  
Alfuzosin  
Allergy desensitization treatment sets, in graded doses  
Allopurinol  
Alprazolam, *CD*  
Alprostadil  
Alseroxylon  
Altretamine  
Amantadine  
Amineptine  
Aminocaproic acid  
Amitriptyline  
Amlodipine  
Amoxapine  
Amphotericin (except in lozenges)

Anaesthetic agents, including local anaesthetics intended for injection, but excluding those preparations intended for topical use and procaine for oral use

Anastrozole

Antibacterial substances, including any preparations and admixtures, other than the following-

- a. eye ointments containing 1% tetracycline or oxytetracycline which are for use in Trachoma
- b. Chloramphenicol eye preparations

Antimony

Arteether (beta alfa) injection

Artemether and its derivatives

Atazanavir

Atenolol

Atracurium

Azacyclonal

Azathioprine

Azapropazone

Azithromycin

Baclofen

Barbituric acid, other than preparations containing 15mg or less in combination with other drugs per unit dose

Beclomethasone  
Bemagride  
Benztropine  
Benzydamine  
Betahistine  
Betamethasone  
Betaxolol  
Bicalutamide  
Bimatoprost  
Bisoprolol  
Brimonidine  
Brinzolamide  
Bromazepam, *CD*  
Bromocriptine  
Bromvaletone  
Brucine  
Budesonide  
Buccal insulin preparations  
Bumadizon  
Bumetanide  
Bupivacaine  
Buprenorphine  
Buserelin  
Busulfan  
Cabergoline  
Calcitonin  
Calcium dobesilate  
Camylofin  
Candersaatan  
Capecitabine  
Captodiamine  
Carbachol  
Carbamazepine  
Carbenicillin  
Carbidopa  
Carbimazole  
Carisoprodol  
Carvedilol  
Cephalosporins (all generations)  
Chlorambucil  
Chloramphenicol  
Chlordiazepoxide, *CD*  
Chlormethiazole  
Chlormethiazole  
Chlorotrianisene  
Chlorpromazine  
Chlorpropamide  
Chlorprothixene  
Chlorthalidone  
Chlortrianisene  
Cimetidine  
Cinnarizine  
Ciprofloxacin only preparations

Ciprofloxacin + metronidazole preparations  
Ciprofloxacin + tinidazole preparations  
Cisplatin  
Clarithromycin  
Clavulanic Acid  
Cholestyramine  
Clindamycin  
Clioquinol (as 3% in topical preparations only)  
Clobazam.  
Clobetasol propionate  
Clobetasone butyrate  
Clofazimine  
Clofibrate  
Clomiphene  
Clomipramine  
Clonazepam  
Clonidine  
Clopamide  
Clopidrogel  
Clorazepate  
Clostridium botulinum toxin type A  
Clotiapine  
Cloxacillin  
Clozapine  
Coca alkaloids, *CD*  
Codeine-  
a. other than liquid preparations containing 5mg or less per unit dose alone or in combinations with other active ingredients.  
b. other than preparations in solid dosage or containing 15 mg or less per unit dose in combination with other active ingredients  
Colchicine  
Conjugated oestrogens  
Corticosteroids, other than in topical preparations containing 1 per cent or less  
Cortisone acetate for buccal use  
Cromoglycic acid  
Cyanocobalamine (except in oral combinations)  
Cyclofenil  
Cyclopenthiazide  
Cyclophosphamide  
Cyclosporin  
Cyproterone  
Cytarabine.  
Dacarbazine  
Dalteparin sodium  
Danazol.  
Dapsone, other than preparations combined with pyrimethamine, and intended for the prophylaxis of malaria  
Darunavir  
Daunorubicin  
Deanol  
Debrisoquine  
Demecarium bromide  
Desferrioxamine  
Desipramine  
Desmopressin acetate  
Dexamethasone, *CD*

Diazepam and other compounds containing the chemical structure of dihydro-1, 4-Benzodiazepine substituted to any degree, *CD*  
Dibenzepin  
Dichloralphenazone  
Diclofenac 100mg Tablets, Capsules and suppositories  
Diclofenamide  
Didanosine  
Diethylpropion  
Diethylstilboestrol  
Digitalis, digoxin and other cardiac glycosides  
Dihydralazine  
Dihydrocodeine  
Dihydroergocristine  
Diloxanide furoate  
Diltiazem  
Dimercaprol  
Dimethotiazine  
Dinoprost  
Dinoprostone  
Dioxyanthanol (Dithranol)  
Diphenidol  
Diphenoxylate, other than in preparations containing 2.5 mg or less per single unit dose  
Dipotassium clorazepate  
Dipyron  
Disopyramide  
Disulfiram  
Dobutamine  
Domperidone  
Dopamine  
Dosulepin  
Doxapram  
Doxazosin  
Doxepin  
Doxorubicin  
Doxycycline  
Droperidol  
Drotaverin  
Duloxetine  
Dyflos  
Econazole  
Efavirenz  
Ethylurea  
Edrophonium  
Emetine, other than Tinct. Ipecacuanha  
Emtricitabine + Tenofovir.  
Emylcamate  
Enalapril  
Enoxaparin  
Entecavir  
Enzaprost F  
Enzymes  
Ephedrine, *CD*  
Epinastine  
Eplerenone  
Ergometrine  
Ergotamine

Erythrithyl tetranitrate  
Erythromycin  
Erythropoietin  
Esomeprazole  
Etamsylate  
Ethacrynic acid  
Ethambutol  
Ethambutol + Isoniazid + Pyrazinamide + Rifampicin  
Ethambutol + Isoniazid + Rifampicin  
Ethchlorvynol  
Ethinamate  
Ethionamide  
Etoheptazine  
Ethylurea  
Etomidate  
Etonogestrel  
Etoposide  
Exemestane  
Famciclovir  
Famotidine  
Felodipine  
Fencamfamin  
Fentanyl, *CD*  
Fexofenadine  
Filgrastim  
Finasteride  
Flucloxacillin  
Fluconazole  
Flucytosine  
Fludrocortisone  
Flumazenil  
Flumazepam  
Flunitrazepam, *CD*  
Fluocinolone  
Fluocinonide  
Fluoromethalone  
Fluorouracil  
Fluoxetine  
Fluphenazine  
Flurazepam, *CD*  
Fluticasone  
Flutamide  
Fluvastatin  
Folinic Acid  
Formoterol  
Fosinopril  
Framycetin, other than topical  
Furosemide  
Fusidic Acid  
Gadopentetate dimeglumine  
Gatifloxacin  
Gelsemium  
Gentamycin  
Glafenine  
Glibenclamide  
Gliburide

Glimeperide  
Glutamic acid  
Goserelin  
Guanethidine  
Halofantrine  
Haloperidol  
Halothane  
Heparin  
Hepatitis-B vaccine  
Hexamethonium bromide  
Hexetidine  
Homatropine  
Hormones, natural or synthetic, other than –

- a. preparations not intended for systemic effect;
- b. ampoules of Adrenalin (one part of adrenalin in ten thousand parts of solvent) used in the treatment of snakebite; progestational and oestrogenic substances used for the control of ovulation in the human, supplied by a person authorized by the Board;

Human chorionic gonadotrophin  
Human papillomavirus  
Hydralazine  
Hydrochlorothiazide  
Hydrocortisone, other than in topical preparations containing 1% or less  
Hydroquinone, other than preparations intended for external use containing 2% or less  
Hydroxyprogesterone  
Hydroxyzine  
Ibandronic acid  
Ibuprofen tablets which are 600mg and above  
Idoxuridine  
Imipramine  
Indapamide  
Indoprofen  
Infliximab  
Iron preparations intended for injection  
Isoetarine  
Isoflurane  
Isoniazid  
Isoniazid + Rifampicin  
Isoniazid + Rifampicin + Ethambutol  
Isoniazid + Thiacetazone  
Isosorbide dinitrate  
Isradipine  
Itraconazole  
Ketamine  
Ketazolam  
Ketoconazole  
Ketoprofen  
Ketorolac  
Ketotifen  
Labetalol  
Lamivudine  
Lanatoside  
Latanoprost  
Levobunolol  
Levodopa  
Levofloxacin

Lidoflazine  
Lincomycin  
Lisinopril  
Lithium and its salts  
Lobelia  
Lopinavir + Ritonavir  
Lorazepam, *CD*  
Lormetazepam  
Losartan  
Loxapine  
Ludexium  
Mannitol hexanitrate  
Maprotiline  
Mazindol  
Mecobalamin  
Medazepam  
Medroxyprogesterone  
Melarsoprol  
Mefloquine  
Meglumine  
Melphalan  
Mephesisin  
Mephenoalone  
Mephentoin  
Mepivacine  
Meprobamate  
Mercaptopurine  
Meropenem  
Mercury, other than solutions of mercurochrome for topical application containing less than 3% mercurochrome  
Mesna  
Mesuximide  
Mesterolone  
Metaraminol  
Metformin  
Methadone, *CD*  
Methohexitone  
Methyldopa  
Methyl phenidate, *CD*  
Methysergide  
Metoclopramide  
Metoprolol  
Metrifonate  
Metronidazole  
Mexiletine  
Mianserin  
Midazolam, *CD*  
Mifepristone  
Mifepristone + Misoprostol  
Milrinone lactate  
Minocycline  
Minoxidil  
Misoprostol  
Mitoxantrone  
Molindone  
Mometasone

Monoamine oxidase inhibitors

Morphine, other than in the form of Gee's Linctus and Tinct. Camphor. Co., *CD*

Moxifloxacin

Mupirocin

Nadolol

Nadropine

Nalidixic Acid

Nalorphine

Naloxone

Natamycin

Nelfinavir

Neomycin

Neostigmine

Nevirapine

Nifedipine

Niflumic Acid

Nimesulide

Nimorazole

Niridazole

Nitazoxanide

Nitrazepam

Nitrofurantoin

Nitroxoline

Nomifensine

Norfloxacin

Nux vomica

Oestradiol, in oestrogen deficiency states and menopause

Ofloxacin

Olanzapine

Omeprazole

Opium, other than in the form of Gee's Linct. Camphor Co.

Orlistat

Ornidazole

Orphenadrine

Oseltamivir

Oxamniquine

Oxazepam

Oxalinic acid

Oxprenolol

Oxybutyryn

Oxyphenisatin.

Oxytetracycline

Oxytocin

Pancuronium

Pantoprazole

Parecoxib

Pargyline

PEG-Interferon alfa-2A

Penbutolol

Penicillins

Pentaerythritol tetranitrate

Pentamidine

Pentazocine, *CD*

Pentolinium tartrate

Perfloxacin

Perhexiline

Pethidine, *CD*  
Phecacaine  
Phenacetamide  
Phenaglycodol  
Phenindione  
Phenobarbital, *CD*  
Phenobarbitone, *CD*  
Phenothiazine other than –  
a. Anthelmintics;  
b. Promethazine containing preparations;  
c. Dimethoxanate in anti-tussive preparations containing 2.5 mg or less per unit dose.

Phenoxymethyl penicillin  
Phensuximide  
Pentermine, *CD*  
Phenytoin  
Physostigmine  
Picrotoxin  
Pimozide  
Pinazepam, *CD*  
Pioglitazone  
Piperacillin + Tazobactam  
Piracetam  
Pituitary Gland and the active principles thereof, except when intended for topical applications and in inhalants.  
Piroxicam capsules  
Pizotifen  
Plasma expanders  
Podophyllum resin  
Practolol  
Pramoxine topical preparations  
Pranoprofen  
Pravastatin  
Prazepam  
Prazosin  
Pregabalin  
Procarbazine  
Prednisolone  
Prenylamine  
Preparations containing corticosteroids for intra or peri-anal use  
Primidone  
Probenicid  
Procainamide  
Procaine hydrochloride  
Procaine penicillin  
Prochlorperazine  
Procyclidine  
Prolintane.  
Propofol.  
Propoxyphene, including dextro-propoxyphene and its salts and preparations  
Propranolol  
Propylhexidine  
Propylthiouracil  
Protamine sulphate  
Prothipendyl  
Protryptiline

Proxymetacaine  
Pyrazinamide  
Pyrazinamide + Isoniazid + Rifampicin preparations  
Pyritinol  
Quinapril + Hydrochlorothiazide  
Quinethazone  
Quinidine  
Quinine  
Raltegravir  
Ramipril  
Ranitidine  
Reserpine  
Ribavirine  
Rifampicin  
Risperidone  
Rituximab  
Rofecoxib  
Rosuvastatin  
Rosiglitazone  
Rosoxacin  
Roxithromycin  
Salmeterol  
Secnidazole  
Sertaconazole  
Setraline  
Sibutramine  
Sildenafil  
Simvastatin  
Sodium calcium edetate  
Sodium fluoride, excluding dental preparations  
Sodium pentosan polysulphate  
Somatropine  
Sotalol  
Sparfloxacin  
Spectinomycin.  
Spironolactone  
Stilboestrol  
Streptokinase streptodornase, and other enzymes obtained from microbiological cultures.  
Styramate  
Sulfiram, other than for topical use  
Sulphinpyrazone  
Sulphonamides, including combinations with other active ingredients, other than for intra-vaginal ophthalmic and topical use, and for use in malaria treatment.  
Sulpiride  
Sulthiame  
Suxamethonium  
Syrosingopine  
Tageserod  
Tamoxifen  
Telbivudine  
Temazepam, *CD*  
Temozolomide  
Tenoxicam  
Tetracycline  
Tetrabenazine

Theophylline Anhydrous (except in preparations containing 120mg or less)  
Thiacetazone  
Thiamphenicol  
Thioguanine  
Thiopentone  
Thioridazine  
Thiothizene  
Thymoxamine hydrochloride  
Thyroid gland natural and synthetic derivatives but excluding radioactive derivatives  
Thyroxine  
Tiaprofenic acid  
Timolol  
Tinidazole  
Tizanidine  
Tobramycin  
Tolazamide  
Tolbutamide  
Tolfenamic acid  
Tolmetin  
Tramadol  
Tranexamic acid  
Tranlycypromine.  
Tretinoin  
Triamcinolone  
Triazolam, *CD*  
Tribromomethyl alcohol  
Trichlorethyl alcohol  
Trichloroacetic acid  
Trifluoperazine  
Trifluoperidol  
Trihexyphenidyl (benzhexol)  
Trimepramine  
Trimethadion  
Trimethaphan  
Trimethoprim  
Tropicamide  
Vaccines, Sera and Antigens other than for poultry use and for oral or nasal administration in man  
Valaciclovir  
Valdenafil  
Valproic acid  
Valsartan  
Vancomycin  
Vasopressin  
Verapamil  
Veratrum  
Viloxazine  
Vinblastine  
Vincristine  
Vindesine  
Vitamin K and its analogues  
Voriconazole  
Xamoterol  
Zafirlukast  
Zolmitriptan  
Zolpidem  
Zidovudine

Any substances derived from any of the medicines referred to in this Schedule, unless expressly excluded.

*CD – refers to drugs controlled under the United Nations Conventions of 1961, 1971 & 1988*

## **PHARMACY MEDICINES (P)**

The following are medicines that do not require a medical practitioner's prescription, but may only be supplied on the recommendation of a pharmacist on professional judgment who shall maintain proper records relating thereto.

The salts, preparations and admixtures of the following-

Acetarsol

Acetic acid syrup

Aconite

Acyclovir (not more than 5%)

Adapalene cream

Aescin , preparations intended for topical use only

Alfacalcidol

Alimezanine (trimeprazine)

Alkali fluorides other than dentrifices containing not more than 0.3% of the alkali salts of hydrofluoric acid

Aloxiprin

Ambroxol + clenbuterol

Amino-alcohols, esterified with benzoic acid, phenylacetic acid, phenylpropionic acid, cinnamic acid, or the derivatives of these acids, their salts, being preparations for oral use only

Aminopentamidine

Aminophylline, other than parenteral preparations

Ammonia

Amodiaquine

Amoxicillin, other than parenteral preparations

Amphotericin lozenges

Ampicillin, other than parenteral preparations

Amyl nitrate

Anaesthetic agents intended for topical use and procaine for oral use

Antazoline

Anthraquinone

Antibacterial substances :-

- a. eye ointments containing one per cent tetracycline or oxytetracycline which are for use in Trachoma
- b. chloramphenicol eye preparations

Antifungal preparations for vaginal use and topical preparations (excluding whitfields, undecylenic acid)

Antihistaminic substances, the following :-

Antazoline;

Bromazine;

Buclizine;

Carbinoxamine

Chlorcyclizine

Clemastine

Clemizole

Cyanocobalamine in oral combinations

Cyclizine

Cyproheptadine

- a. liquid preparations containing 5mg or less per unit dose alone or in combinations with other active ingredients
- b. preparations in solid dosage forms containing 15mg or less per unit dose in combinations with other active ingredients

Dexchlorpheniramine

Dephenylpyraline

Phenindamine

Pheniramine

Phenylephrine, other than preparations containing less than 0.2% phenylephrine intended for topical use

Pholcodine, in the form of liquid preparations only

Tolpropamine

Tripolidine

Astemizole

Ascorbic acid preparations containing 500mg or more per unit dose

Barium

Beclomethasone inhaler (for use in asthma)

Belladonna, and the alkaloids thereof

Bendrofluazide (not more than 5mg)

Benzidamide

Benzoyl peroxide

Bisacodyl

Bismuth subgallate

Bitolterol mesylate

Bromazine

Bromelains

Bromhexine

Buclizine

Calciferol

Camylofin

Caramiphen

Carbinoxamine

Carbocisteine

Carbuterol

Cetirizine tablets and syrup

Chloral, all salts and derivatives

Chlorbenoxamine

Chlorbutol, except when intended for use as a preservative

Chlorcyclizine

Chlorhexidine

Chlormezanone, preparation containing 100mg or less in combination with analgesic or anti-asthmatic drug

Chlorphenesin

Choline theophyllinate

Chrysarobin

Cimetidine (not more than 200mg)

Ciprofloxacin (for treatment of Sexually Transmitted Infections only)

Clobutinol

Codeine-

- a. Containing 5mg or less per unit dose alone or in combinations with other active ingredients in solid dosage forms
- b. Containing 15 mg or less per unit dose in combination with other active ingredients in liquid dosage forms

Corticosteroids; topical preparations containing 1% or less  
Creosote, obtained from wood, other than substances containing less than 50% creosote  
Cyclandelate  
Cyclopentolate  
Diclofenamide  
Dapsone, preparations in combination with pyrimethamine and intended for prophylaxis of malaria  
Dequalinium  
Dextromethorphan  
Desloratidine  
Dextran + Hydroxypropylcellulose eye drops  
Dibromopropamide  
Dicycloverine (Dicyclomine)  
Diclofenac 50mg & 75mg Tablets, capsules and suppositories  
Diethylamine salicylate  
Diloxanide  
Dimethindene  
Diphenoxylate, preparations containing 2.5mg or less per unit dose in combination with other active ingredients  
Dithranol (not more than 5%)  
Docusate eye drops  
Domiphen bromide  
Domperidone  
Doxycycline (for treatment of Sexually Transmitted Infections only)  
Doxylamine  
Erythromycin (for treatment of Sexually Transmitted Infections only)  
Etafedrine  
Ethintrate  
Folic acid  
Formaldehyde, other than when used as a preservative  
Furazolidone  
Fedrilate  
Fenbufen  
Fenoprofen  
Fenoterol  
Floctafenine  
Fluconazole  
Flucloxacillin, other than the parenteral preparations  
Flurbiprofen  
Furazolidine  
Gamma benzene hexachloride  
Glucuronic acid  
Glyceryl trinitrate  
Griseofulvin  
Halquin (Chlorhydroxyquinoline) (Di-iodohydroxyquinoline)  
Hexachlorophene, preparations containing more than 1 per cent hexachlorophene  
Hexitidine  
Hexoprenaline  
Hormones, all oral contraceptives and vaginal preparations  
Hyaluronidase  
Hydrochloric acid, as diluted solution for achlorhydria  
Hydrocortisone, preparations intended for external use containing 1% or less hydrocortisone  
Hydroaltacite  
Hyoscyamine  
Hyoscine  
Ibuprofen tablets 400mg  
Ichthammol

Indomethacin  
Iodine, iodides  
Isoaminile  
Isohipendyl  
Ivermectin  
Levallorphan  
Levonorgestrel  
Loratidine syrup and tablets  
Methenamine (Hexamine)  
Mebhydrolin  
Meclozine  
Mefenamic acid  
Metoclopramide  
Methocarbamol  
Methoxyphenamine  
Metronidazole, other than parenteral preparations  
Morphine, only in the form of Gee's Linctus and Tinct. Camph. Co  
Mytecaine  
Nadifloxacin topical preparations  
Naphazoline  
Naproxen  
Niclosamide  
Nicotinic acid  
Nonoxynol-9 pessaries  
Non-steroidal anti-inflammatory agents  
Norfloxacin + tinidazole  
Noscapine  
Nystatin except pessaries and creams  
Olopatadine eye drops  
Opium, only in the form of Gee's Linctus and Tinct, Camphor Co  
Orciprenaline  
Oxetacaine  
Oxymetazoline  
Oxyphencyclimine  
Paracetamol + Diclofenac  
Paracetamol + ibuprofen tablets  
Pancreatin  
Pantothenic acid  
Papaverine, substances containing less than 1% papaverine  
Paracetamol suppositories  
Pentifyllin  
Pentoxyverine  
Phenazone  
Pimecrolimus topical  
Pholedrine  
Pirbuterol  
Poldine metisulfate  
Potassium chloride  
Praziquantel  
Procaterol  
Proguanil  
Propamide  
Propantheline bromide  
Propylenediamine  
Tetra substituted N derivatives of ethylenediamine or propylenediamine  
Quinine (when used for nocturnal cramps)

Rimiterol  
Ritodrine  
Salbutamol, including inhaler  
Selenium  
Sodium aescinate for topical use.  
Sucralfate

Sulfiram, preparations intended for topical use only  
Sulphonamides, including combinations with other active ingredients intended for topical use only with pyrimethamine for the prevention of malaria  
Terbutaline  
Terpine hydrate  
Tetracycline (for treatment of Sexually Transmitted Infections only)  
Thenalidine  
Theophylline  
Tolazoline: intended for topical use  
Tolpropamine  
Tribenoside  
Tricyclamol chloride  
Triprolidine  
Vitamin A other than preparations containing 10 thousand units or less of Vitamin A activity per unit dose  
Xylometazoline and analogues  
Yohimbine containing products  
Zinc sulphate

Any substances derived from any of the medicines referred to in this schedule, unless expressly excluded.

### **OVER THE COUNTER MEDICINES (OTC)**

Acetylsalicylic acid  
Activated charcoal  
Algicon and its analogues  
Aluminium, Magnesium, Sodium, Calcium and Bismuth containing antacids  
Aminacrine + lidocaine topical preparations  
Amodiaquine + Artesunate  
Antacids containing Simethicone and its analogues  
Anthelmintics, except Suramin and Ivermectin  
Anti-asthmatic compound preparations, containing not more than 120mg of Theophylline and 11mg of Ephedrine  
Artemether suppository  
Artemether + Lumefantrine  
Artesunate suppository  
Benzyl benzoate  
Benzyl peroxide  
Castor oil  
Cetrimide  
Chloramphenicol eye preparations  
Chlorhexidine  
Chloroquine and its salts, except parenteral preparations  
Chlorpheniramine  
Clotrimazole powder for topical use, pessaries and creams  
Contraceptive Foaming Tablets  
Co-trimoxazole preparations  
Cough preparations except those containing Morphine and its analogues

Cough preparations containing Ambroxol, Bromhexine and Dextromethorphan  
Crotamiton  
Diclofenac, 25mg tablets and topical preparations  
Dihydroartemisinin suppository  
Dihydroartemisinin + Piperazine  
Diphenhydramine  
Ephedrine Nasal Drops  
Ephedrine containing cold preparations only  
Ferric and ferrous salts, and their combinations  
Folic acid 5mg  
Glucose and preparations thereof  
Ibuprofen tablets 200mg and topical preparations  
Kaolin and Pectin containing compounds  
Ketoconazole Shampoo  
Liquid Paraffin  
Loperamide Tablets and Capsules  
Low-dose contraceptives containing not more than 35ug oestrogen  
Mercurochrome  
Methyl salicylate ointment  
Miconazole only, containing pessaries and creams  
Milk of Magnesia  
Nystatin pessaries and creams  
Paracetamol (except suppositories)  
Piroxicam gel  
Podophylline  
Povidone iodine, creams, pessaries and topical preparations  
Promethazine, other than parenteral preparations  
Pyrimethamine  
Pyrimethamine / Sulphonamide combinations  
Oral Rehydration Salts  
Salicylic Acid preparations  
Senna and its preparations  
Silver sulphadiazine  
Topical preparations for treatment of Haemorrhoids (except those containing steroids)  
Triprolidone containing cold preparations  
Vitamin and Minerals, except parenteral preparations
