

ENTRY AND EXIT FOR REGULATED PRODUCTS

Importation and exportation of pharmaceutical products, vaccines and biological products is restricted to **Tema Port** and the **Kotoka International airport**.

The following are the other points of entry and exit for food, cosmetics, medical devices, household chemical substances;

1. Hamile Border
2. Tumu Border
3. Gonokrom Border
4. Takoradi port
5. Elubo Border
6. Akanu Border
7. Aflao Border
8. Kulumbungu Border
9. Pulmakom Border

WHY FDA OPERATIONS AT THE PORTS ARE IMPORTANT

The FDA has a presence at all the ports of entry and exit for the following reasons;

1. To ensure that imported regulated products that reach the consuming public are safe, of good quality and efficacious (in the case of drugs)

2. To ensure that registered imported regulated products are of the same standards as when they were registered
3. To identify unregistered imported regulated products for registration
4. To regulate products earmarked for export
- 5.** To license custom bonded warehouses for regulated products.
